

OIL & GAS ENGINEERING

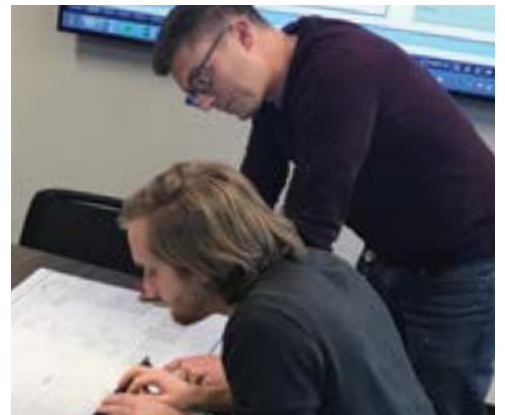

MasTec Professional Services (MPS) provides comprehensive design and operations engineering services for oil and natural gas distribution and transmission projects. Utilizing advanced technology in the office and in the field, we work with clients through all project phases, from initial route analysis and design drawings to material procurement, GIS as-builts, and inspection services.

MPS develops comprehensive and cost-effective solutions while meeting design, permitting, and installation requirements and placing safety at the forefront of every project. As our engineers work through the full project life cycle, they have a deep understanding of the comprehensive requirements for providing a clear set of construction documents.

With extensive experience in both urban and rural environments, MPS supports customers by handling the complexities of compliance, including permits and documentation, and attending public hearings and meetings with state, municipal, and third-party members and contractors on the clients' behalf.

SERVICES

- Pipeline Route Analysis & Feasibility
- Right-of-Way Negotiation & Acquisition
- System Modeling & Load Analysis
- Main Extension & Replacement
- System Reinforcement & Betterment
- Horizontal Directional Drilling
- As-Built and GIS Mapping
- Subsurface Utility Investigations
- Permitting – Environmental, Municipal, & State
- AC Mitigation and Corrosion Protection
- Pipeline Integrity Management Services
- M&R Station and Site Design
- Cathodic Protection Survey & Troubleshooting
- External Corrosion Direct Assessment (ECDA)
- Pipeline Anomaly Inspection and Recoat
- Cathodic Protection System Design
- Tank Inspection & Design
- Piping and Loading Rack Design and Inspection
- Pipe Type Cable Cathodic Protection Design and Install

COMMITMENT TO SAFETY

At MasTec companies, we are committed to protecting the environment and conducting our operations in a manner that promotes the health and safety of our employees, customers, and the communities in which we operate. Safety is a core value. We recognize the need for our workforce to have a safe and healthy workplace and are committed to maintaining a strong and sustainable safety culture in our organization. We prioritize investments in safety equipment and training because we care deeply about everyone going home safely.

ABOUT

MasTec Professional Services provides results-driven engineering, design, and integrated services to the power, oil, gas, and water industries. With a genesis in construction and a skilled team of multidiscipline engineers and project management professionals, we deliver end-to-end solutions for infrastructure projects across the country.

The MasTec Professional Services team is committed to excellence in every aspect of our work. We create collaborative partnerships with our clients, building trust by consistently exceeding expectations. Whether providing a singular service or a complex, comprehensive program, we bring a dedication to safety, a deep understanding of infrastructure, and the highest standards of performance to every job. Our best-in-class abilities include design, asset integrity management, feasibility studies, surveys, constructability reviews, turnkey delivery services, and more.

MasTec Professional Services is a subsidiary of MasTec, a certified Minority-Controlled Company by the National Minority Supplier Development Council (NMSDC).
